

Granite sink, 1-bowl with drainer Momi

Manufacturer	
Weight	16.85 kg
Product Code	ZKM_S11A
EAN	5907650831150
SKU	003560
IBB ID	13402

Product specification

Manufacturer	DEANTE	Unit	pcs
EAN	5907650831150	Additional characteristics	maskownica odpływu w komplecie. deska w komplecie
Frame height adjustment [mm]	200	Aerator size	M28
		Aerator type	coin-slot
Ceramic cartridge size	35 mm	Adjustment range from [mm]	700
Connection thread	m8	Finish	steel
Flow class [l/min]	z - 4-9 l/min	Material	granite
Depth [mm]	200	Installation method	recessed, under-counter
Plug type	automatic with button	Height [mm]	230
Connection diameter	50	Cutout in the countertop (recessed) - length [mm]	650
Cutout in the countertop (suspended) - length [mm]	630	Cut out width recessed	420
		Cut out width suspended	400
Surface type	matt	Drain diameter	3.5"
Number of sink compartments	1		

Granite composite is a combination of quartz sand and resins in ideal proportions. Thanks to this our sinks are resistant not only to impact, but also to high temperature (250°C), spot color change and thermal shock - in accordance with the European standard PN-EN 13310 They do not take odors and have hydrophobic properties that repel water molecules. Granite is noble and timeless, and thanks to the a wide range of colors fits every kitchen - futuristic and classical . Deante granite sinks are produced in Poland, in one of the most modern factories in Europe.

Advanced production technology enables of the highest standards of workmanship and audit quality, which results in not only beautiful appearance of the product, but also its special properties.

Hydrophobicity is one of the natural features of granite, very useful in the kitchen. The surface of the sink repels particles of water, therefore the drops freely flow taking dirt particles with them. All of this makes keeping clean much simpler and no requires scrubbing or use of specialized chemicals.

The sink was equipped with innovative "Space Saver" siphon. If you've been|annoyed|annoyed by} pipes and elbows taking up most of the space in your cabinet, this is the solution for you. Special and telescopic design allows you to adjust shape of the siphon to your needs. Thanks to this, it is easy to find much more space in the cabinet for example for homemade preserves or bins for waste segregation. It is also possible to connect a washing machine or dishwasher to the siphon. And most importantly - you get the siphon in set!

The antiseptic surface created by Deante was created using advanced nanoparticle technology using the highest purity silver ions. The solution of this metal is added at the production stage to the mass from which sinks are formed later. As a result, it is evenly mixed throughout the product, allowing to achieve durability and efficiency that significantly exceeds the parameters of using only the top coating.

The use of dedicated agents means that the surfaces do not deteriorate and remain smooth for long, facilitating daily cleaning. A specially selected composition removes the most common dirt extremely effectively. On the other hand, the preparations are mild for a given type of surface (metal, granite, ceramics and others), without entering into chemical reactions with them. The preparations are biodegradable and thus safe for the environment. With Deante cleaning products, keeping things in order will be very easy!
