

PIR insulation board ECOTHERM Eco-Versal

30x1200x2400mm

Manufacturer	
Country of manufacture	Poland
Weight	2.76 kg
SKU	003658
Advice IBB	
Application	For insulating walls, floors, pitched roofs, dormer cheeks and ceilings, timber frame walls, lofts
IBB ID	13515

Product specification

Manufacturer	Eco Therm Insulation	Unit	pcs
Country of manufacture	Poland	Fire resist	Under System 4 AVCP, Eco-Versal has a Euroclass rating of F
Thermal conductivity [W/mK]	0.022 W/mK		

ECOTHERM INSULATION BOARDS

Eco-Versal is a high performance rigid thermoset polyisocyanurate (PIR) insulation. Eco-Versal is a 5 in 1 insulation board with a thermal conductivity of 0.022 W/mK. It is suitable for a number of different applications, including cold flat and pitched roofs, floors and timber frame construction. Eco-Versal can also be used to upgrade insulation on most internal and external walls.

Product Highlights

- A 5 in 1 solution that's suitable for insulating floors, walls, roofs, dormer cheeks and ceilings
- Rigid insulation board with a thin profile that's easy to cut and install
- Lightweight insulation – easy to transport
- High performance rigid polyisocyanurate (PIR) insulation core
- Aluminium composite foil facing to both sides
