Application	enables easy application of ready-mix plaster
IBB ID	8958

## Product specification

Manufacturer	ATLAS	Unit	pcs
EAN	5905400575279	Relative air humidity during application and curing	< 80%
Density of the finished product	ca 1.9 g/cm3	pH	8

roller for ready-mix plaster ATLAS 230mm

A roller with a handle is an ideal tool for quickly and evenly applying plaster. It has strong 16 mm long bristles that allow you to gain a lot of weight.

It is equipped with a handle with a plastic handle and a press-in mounting system that allows for quick installation on telescopic handles. The handle also has a hole for hanging the roller.
