### Spray painting gun for industrial use

#### DESCRIPTION

Gun designed for high-intensity painting work.

The metal body and perfect fit to the hand, increase the comfort of work.

Fully adjustable spray width and air flow rate, allow for perfect adjustment of the paint stream to the painted surface.

Minimised dusting and excellent paint breakdown make spraying walls a real pleasure.

#### APPLICATION

The spray gun is perfect for use during:

- spray painting with emulsion, latex or primer paints,
- coating walls with primers
