Kanlux BLINGO LED are backlight panels. They are equipped with a junction box with a quick connector, which allows for pass-through connection of panels and speeds up their installation. In most panels from the Kanlux BLINGO LED family, the power supply has been integrated with the luminaire, thanks to which we can, among others: place them in any Kanlux ADTR frame and perform surface-mounted panels.\* In addition, a whole range of accessories for Kanlux BLINGO panels is available (including GK clips and suspended cables).
