Telescopic Stick for painting and other uses - Perfect for Tall Spaces

Discover the unique comfort of working with a telescopic pole designed for painting and other applications. Made of a combination of durable plastic and lightweight aluminum, this telescopic pole guarantees not only durability, but also comfort of use thanks to its low weight. It is perfect for hard-to-reach places thanks to its maximum length of 180 cm, allowing you to easily reach ceilings and high walls.

Are you annoyed by long tool changes on standard holders? This problem no longer concerns you after purchasing the Solid telescopic pole with click function!

If you are looking for a tool that is both light and resistant to mechanical damage. Its telescopic design allows for easy folding, which greatly facilitates transportation and storage. Perfect for professionals and amateurs who value efficiency and ergonomics.

Don't let hard-to-reach places be a challenge. Take advantage of the possibilities offered by the Solid Click telescopic pole and enjoy precise and comfortable work at any height. Check it out today and see how easily you can improve your work efficiency.

Characteristics of the telescopic pole:

High-quality workmanship made of strong plastic and aluminum extends the life of the telescopic pole

The Click function allows you to quickly change accessories

When unfolded, the telescopic pole becomes long enough to reach high places on walls and ceilings

After finishing work, the telescopic pole can be folded, which greatly facilitates its transport

Technical data of the Solid Click telescopic pole:

Material: aluminum/plastic

Length of the folded stick: 100 cm

Length of the stick when unfolded: 180cm
