IBB ID	10877

Product specification

Manufacturer	SELENA	Unit	pcs
Brand	tytan professional	EAN	5902120203680

The latest generation **Mocarny sealant** is a versatile product for interiors, developed using the breakthrough sealing technology SPD technology - seals - fills - repairs.

The product is characterized by high flexibility and excellent adhesion to the surface.

It is waterproof and strongly protected against the development of mold, fungi and other microbiological corrosion.

After hardening, the joint can be painted.

Suitable for most applications reserved for silicones, acrylics and hybrid sealants.

It is intended for sanitary sealing and finishing works.

It can be successfully used in painting or finishing works, e.g. around window and door frames.

Due to the neutral hardening system, it is suitable for sealing sensitive and delicate surfaces such as mirror, natural stone, marble or acrylic elements in kitchens, bathrooms and other sanitary facilities.
