

Cement based top finish render ATLAS REKORD white 25kg

Brand	ATLAS
Manufacturer	
Weight	25.00 kg
Product Code	REKO-25
EAN	5905400270259
SKU	8766
Application	white cement top finish, reinforced with microfibers
IBB ID	8766

Product specification

Manufacturer	ATLAS	Unit	bag
Brand	atlas	Colour	white
EAN	5905400270259	Coverage	15 kg /m2/ 10 mm
Relative air humidity during application and curing	< 80%	Density of the finished product	ca 1.9 g/cm3
		pH	8

ATLAS REKORD white mortar

Most important features

- based on white cement
- for finishing walls and ceilings
- on typical mineral substrates
- contains fine aggregate – up to 0.2 mm
- reinforced microfibers

Product description

- Smoothens the surface of walls – the use of aggregate of diameter up to 0.2 mm enables highly smooth finish forming.
- Enables smoothing thin-coat plasters – applied on either traditional plasters or on thermal insulation layers (is not an element of thermal insulation systems).
- Improves the quality of damaged cement and cement-lime plasters as well as concrete substrates.
- Used as the third, finish coat of freshly applied plasters.
- White colour – based on fine white type of cement, perfectly replaces gypsum top finishes in places, where they can be exposed to damage - on external walls and in wet rooms.
- Resistant to micro-cracks – contains special microfibres, which reinforces its structure.
- Hydrophobic – the content of hydrophobic agents reduce the absorbability, but does not limit the water vapour permeability.
