

# Plastering mass primer Atlas silicone ANX 15kg

Brand	ATLAS
Manufacturer	
Country of manufacture	Poland
Weight	15.00 kg
Product Code	ANX-15
EAN	5905400356557
SKU	6119
IBB ID	6119

## Product specification

Manufacturer	ATLAS	Unit	bucket
Brand	atlas	EAN	5905400356557
Country of manufacture	Poland	Relative air humidity during application and curing	< 80%
Density of the finished product	ca 1.9 g/cm3	pH	8

ATLAS SILKON ANX is designed for priming substrates beneath ATLAS thin-coat silicone and silicone-silicate renders.

Improves bonding – strongly bonds to substrates and applied renders.

Limits substrate absorptiveness – prevents excessive water transfer from freshly applied renders into substrates.

Facilitates application of subsequent coat – rough surface reduces “slip” of the applied render.

Forms temporary protective layer for a façade – protects non-rendered façade against weather conditions within half a year.

### Main properties

Contains aggregate – improves bonding owing to significant broadening of the effective surface between layers (forms rough surface).

Protects substrates against adverse effects of the new coat – forms chemical barrier between substrate and render, limits their interaction – reduces colour penetration from substrates and occurrence of stains on the render surface.

High bonding – min. 1.0 MPa for concrete.
