

# Remover for polymer dispersion residues ATLAS Resin Away 1kg

Brand	ATLAS
Manufacturer	
Weight	1.00 kg
Product Code	Resi Away
EAN	5905400540048
SKU	6037
IBB ID	6037

## Product specification

Manufacturer	ATLAS	Unit	bottle
Brand	atlas	EAN	5905400540048
Relative air humidity during application and curing	< 80%	Density of the finished product	ca 1.9 g/cm3
		pH	8

ATLAS RESIN AWAY (Szop 2000) concentrated polymer dispersion residues remover

### Most important features:

removes residues of priming emulsions, paints and dispersion renders for ceramic, stone, clinker, chrome plated, varnished, stainless steel and plastic surfaces

### Product description:

- Removes residues of dispersions – priming emulsions (e.g. ATLAS UNI-GRUNT), protective agents (e.g. ATLAS DELFIN), emulsion paints, dispersion renders.
- Types of cleaned surfaces – ceramic (glazed, terracotta, porcelain-gres, clinker) and stone tiles, washing facilities, chrome-plated and varnished, stainless steel and plastic surfaces.
- Fast and effective – contains non-ionic surfactants, solvents and alkaline agents, dissolves dispersions quickly.
- Can be diluted – depending on the degree of contamination, can be diluted with water (max. ratio 1:5).
