

Impregnate agent for grouts and tiles ATLAS DELFIN

1kg

Brand	ATLAS
Manufacturer	
Weight	1.00 kg
Product Code	DF-01
EAN	5905400540017
SKU	5112
Application	For unglazed and stone tiles, protects tiles and joints against stains and dirt
IBB ID	5112

Product specification

Manufacturer	ATLAS	Unit	bottle
Brand	atlas	EAN	5905400540017
Coverage	1kg for ca. 15÷20m ²	Relative air humidity during application and curing	< 80%
Density of the finished product	ca 1.9 g/cm ³	pH	8

ATLAS DELFIN

Most important features

- protects tiles and joints against stains and dirt for unglazed and stone tiles
- creates a protective layer
- gives the tiles a delicate shine
- enlivens the color of the surface

Product description

It protects against typical utility stains - from oils, fats, coffee, tea, water, etc. It protects porous surfaces - which can become structurally dirty. It makes it easier to keep clean - thanks to its high penetration ability, it penetrates the top layer of tiles and joints, while creating a durable protective coating on their surface. Gives a delicate shine to unglazed tiles. Restores a fresh look to old, matt cladding.

Types of surfaces to be protected - cement joints, highly absorbent tiles (unglazed ceramic, stone and cement tiles).
