Tile cutter MGZ-800 800mm

Product Information

Guides: 25x12mm

Roller bearings

Cutting length: 600/800mm

Base width: 265mm

The base of the device has a closed profile, which makes it more stable

It has an adjustable angle, so you can cut tiles at different angles

Amortized tabletop for breaking tiles

A new mechanism is used for breaking the plate, which allows it to be broken without the need to adjust the knife using an additional Allen screwdriver,

Possibility to preview the cutting

The mechanism facilitates cutting tiles diagonally (in diamonds)

A support for larger tiles is used, which makes the work of the tiler easier

A ø8 cutting knife is standardly installed, it is possible to use knives with a blade diameter of ø10 or ø12

Protractor and ruler for measuring cuts

Original devices have the WALMER logo on black elements.
