Plasterboard moisture SINIAT Tapered Edge 2600x1200x12.5mm

Siniat Smart H is a new base impregnated plasterboard intended for use in rooms where reduced water absorption is required (e.g. kitchens, bathrooms, etc.).

It is characterized by very easy processing and assembly.

Thanks to the use of the latest technologies, the costs of its storage and transport have been optimized.

Choose Siniat Smart H plasterboard with reduced water absorption and be smart!

Thanks to the technology used, we reduced carbon dioxide emissions in the board production process by 8%.

Now, when you buy products from the Smart line, you are choosing a solution that is not only environmentally friendly, but also beneficial to you - which will increase the comfort and quality of your work and reduce its costs.
