WYKAMOL

Unit

pack

Wykamol CM Plaster Plugs are fixings to apply mesh cavity drain membranes to the walls of both above and below ground structures.

They ensure a water tight application of the Wykamol Cavity Drain Membrane System when used with the tailor made Thermoplastic Elastomer seals.

Wykamol CM Plaster Plugs are high quality fixings and can be used on a range of applications and substrates:

To apply mesh membrane systems such as CM3 Mesh and CM8 Mesh

Where a plaster application is necessary

Where dot and dab plaster board application is necessary

To secure membranes to walls on systems where a free standing frame is to be used
