Silicone render AZURO dotted 1.5 mm white 25 kg

Ready-to-use silicone plaster mass for making decorative and protective coatings in the SEMPRES TERM ST building insulation system and for use outside buildings on typical construction substrates, also previously coated with acrylic paints, also for renovation purposes.

The product is applied with a trowel.

Available in a range of colors in accordance with the IMPRESSIO and MASSIMO color palette chart or dyed based on the supplied pattern.

Suggested in many granulations in a full texture (so-called lamb).

Before applying the plaster, prime the substrate with AZURO GRUNT or MULTI GRUNT.

Characteristics:

- easy to apply and invoice with a trowel
- a large selection of granulations
- increased resistance to algae and fungi
- high hydrophobicity
- high water vapor permeability
- high flexibility after drying
- high color stability
- environmentally friendly
