

Adhesive mortar C1TE flexible elastified ATLAS 25kg

Brand	ATLAS
Manufacturer	
Weight	25.00 kg
Product Code	GLE-25
EAN	5905400015096
SKU	000225
IBB ID	9258

Product specification

Manufacturer	ATLAS	Unit	bag
Brand	atlas	Colour	grey
EAN	5905400015096	Relative air humidity during application and curing	< 80%
Density of the finished product	ca 1.9 g/cm3	pH	8

ATLAS ELASTIFIED ADHESIVE MORTAR C1TE - general-use adhesive 2-10 mm

Most important features

for small and medium ceramic tiles
 on walls and floors
 bed depth 2-10 mm
 for substrate floating
 for interior and exterior use, at low and average operation load

Product description

ELASTIFIED ADHESIVE MORTAR ATLAS is a grey C1TE adhesive for small and medium ceramic tiles. Improved formula makes the product to reach the highest technical parameters within its class and is widely used in residential housing.

The improved technology ensures:

- wide range of bed depth (2-10 mm), for thin coat tile fixing as well as substrate levelling,
- extended open time - 30 minutes – it can be once applied onto larger surface,
- reduced slip, therefore enables fixing the cladding from the top towards the bottom
- wide range of use in residential housing: bathrooms, kitchens, corridors, garages, staircases, walls and floors.
