Tool box with wheels Qbrick System ONE

Large tool box on wheels ensuring excellent mobility of Qbrick modular systems.

Two rubber-covered overrun wheels, mounted on a metal axle, allow for safe transport of even complex sets.

A telescopic aluminum handle that tilts when the lid is opened provides comfortable access to the interior of the box.

The cover (VARIO) included in the QS ONE Cart is standardly equipped with additional connectors that allow this version of the cover to be connected to tool box models from the Qbrick System PRO line (500, Toolcase, Toolbox, Organizer 100, 200, 300 and interchangeably PRO 600).

This is a unique version of the box, thanks to which the user can combine elements from two product lines.
