QBRICK BOX SET PRO SET 3IN1

An excellent quality set of three modular boxes from the renowned Polish manufacturer Qbrick System.

The set enables convenient and safe transport of tools in various conditions. Therefore, it will become a perfect complement not only for professional workshops, but also home DIY enthusiasts and mobile fitters.

The set allows you to conveniently roll it like a travel suitcase, and thanks to a solid metal axle and large, rubber-coated wheels, it will be perfect for rolling stairs or overcoming various uneven surfaces.

Qbrick Pro Set is one of the few sets of toolboxes that have a module that allows you to safely carry sensitive tools. Toolcase Pro is prepared for this by using a reinforced structure, a rubber seal and layers of special cushioning foam.

The Pro Set has been built in a modular way, which means that its elements can be easily combined and separated. An important feature is also the ability to add additional modules. The Pro Set allows you to add, for example, additional Qbrick Multi organizers or Qbrick One boxes.

It is worth remembering that the Pro Set is a 100% Polish product, by buying it you support the Polish company and the national economy!
