Brand	comensal bravo		

High-quality Venetian trowel in the shape of a trapezoid for decorative plaster, 240 x 100 x 90 mm

Venetian trowel de LUX from the professional COMENSAL BRAVO line is made of the highest quality Italian steel. The tool is used to create decorative effects using paints and structural masses (especially recommended for the application of Venetian stucco. It is a product refined in every respect: aesthetic and functional.

The profiled, shiny steel has been polished in such a way that you can see yourself in it like in a mirror! The applied mass does not stick to the smooth and slippery surface of the worktop, which facilitates its application. Ideal for shaping stuccos and other decorative plasters.

The trapezoid-shaped worktop with dimensions of 240 x 100 x 90 mm has characteristic rounded corners with perfectly smooth edges, thanks to which it does not leave any artificial cut-offs and the structure looks natural. The trapezoidal shape of the steel, beveled ends, comfortable handle are features that significantly increase the comfort of work.

The quality of raw materials, steel cuts translate into the effect of work and comfort of use.

Destiny:

Giving structure to decorative plasters

Acrylic and lime structural paints and masses, fillers

For filling small cavities with putty or gypsum,

The trowel is durable, easy to clean and maintain, friendly to fans of traditional solutions who value modern quality and expect full "cooperation" with the tool.

working part:

The shiny mirror steel is smooth and slippery, so that mortar does not stick and is easy to shape.

The smooth rounded corners of the edges enable efficient; application of decorative plasters. The top does not leave artificial cut-offs, and the resulting structure looks natural.

Made of high-quality steel with a high content of alloying elements, thanks to which it is resistant to rust.

Worktop dimensions: trapezoid 240x100x90mm

#### Handle:

Made of beech wood, it has been treated with a layer of wax to protect against moisture and dirt.

It has a classic oval shape and is comfortable to hold in the hand

It is pleasant and smooth to the touch. Wood lovers will certainly appreciate its natural qualities.

Permanently and stably connected to the base with an aluminum foot at a length of 150mm.

The hole in the handle allows you to hang the tool in the workshop.

#### Quality:

The tool was made of the highest quality raw materials from proven suppliers, using modern technology that increases resistance to unfavorable working conditions.

They are easy to clean by washing off with water the remains of plaster and plaster that have not dried on.

It is thought out in terms of comfort and usability, it is characterized by extraordinary durability and aesthetics.

Corrosion resistant.
