

Ready mixed polymer plaster SINIAT NIDA effect 18kg

Brand	NIDA
Manufacturer	
Weight	18.00 kg
Product Code	effect
EAN	5907697638323
SKU	000923
IBB ID	10334

Product specification

Manufacturer	SINIAT	Unit	pack
Brand	nida	Colour	white
EAN	5907697638323		

Ready mixed polymer plaster SINIAT NIDA effect 18kg

Nida Effect ready mass is a polymer leveling compound intended for full-surface leveling, both manually (including using a smoothing roller) and mechanically (using a spray unit).

Nida Effect ready mass is characterized by very good adhesion to the substrate. It is easy both to apply and to sand the surface, and after drying it has a uniform snow-white color, which is an ideal base for further finishing works.

Nida Effect is a thin-layer product, therefore it is not recommended to use the product under wallpapers, ceramic tiles, decorative tiles and floor coverings. The product recommended for this type of finish is Nida Max.

Technical data:

shelf life from the production date: 9 months,
maximum thickness of one layer: up to 1.0 - 1.5 mm,
approximate consumption: approx. 1.5 kg/m²/mm,
drying time: approx. 24 hours.
Level gypsum putty: Q2, Q3, Q4.
