Product specification

Manufacturer	TERMO ORGANIKA	Unit	pcs
Colour	grey	EAN	5908230809101

TO-KU universal adhesive for EPS is part of the Termo Organika thermal insulation system, for affixing EPS to mineral base surfaces, e.g. reinforced concrete prefabricates, concrete, ceramic, Lightweight Expanded Clay Aggregate (LECA), and aerated concrete elements, natural stone, cement, lime and cement/lime plasters, and similar surfaces, and for embedding the reinforcing mesh. It can be applied in thermal insulation systems of both new and renovated buildings.
