Product specification

Manufacturer	BORAMAX	Unit	pcs
Brand	boramax	Colour	white

BORAMAX plaster sealant 280ml

It's a flexible acrylic sealant!

Its coarse-grained structure imitates the texture of mineral plasters, which makes it indistinguishable from the substrate.

PROPERTIES

Int/ext

Paintable after drying

Resistant to cracking

Perfect for traditional plasters, bricks, concrete, stone and other porous materials.

Perfect adhesion to porous surfaces

APPLICATION

Filling scratches, cracks and joints in walls and ceilings before painting

Sealing door frames, window frames, window sills, balustrades

Joints between the wall and skirting boards, stairs, ceiling and sockets

Connecting structural and building elements subject to low stresses

Minor repairs before painting
